☒ Examiner's Statement of Reasons for Allowance

Art Unit: 3723

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the specific limitations of “a belt forming a closed loop; at least one non-abrasive polishing pad mounted on the belt, the non-abrasive polishing pad configured to receive a polishing slurry suitable for use in chemical mechanical planarization of the semiconductor wafer, wherein the non-abrasive polishing pad polishes a surface of the semiconductor wafer with the polishing slurry; and wherein said belt is formed of metal” are not anticipated or made obvious by the prior art in the examiner’s opinion. For example, Japanese Patent Publication’256 discloses an endless polishing belt assembly consisting of an endless belt made of soft artificial leather. Hunter’679 discloses a metal abrasive belt in Fig. 2, comprising abrasive regions 20 and non-abrasive regions 22 selectively formed on the continuous metal belt 12. However, the prior art of record fails to teach a polishing pad assembly for polishing a semiconductor wafer comprising “a belt forming a closed loop; at least one non-abrasive polishing pad mounted on the belt, the non-abrasive polishing pad configured to receive a polishing slurry suitable for use in chemical mechanical planarization of the semiconductor wafer, wherein the non-abrasive polishing pad polishes a surface of the semiconductor wafer with the polishing slurry; and wherein said belt is formed of metal”.
